Professional Summary

Motivated and detail-oriented Frontend Developer with 1 year of experience building responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and React. Skilled in modern UI/UX design principles and committed to writing clean, maintainable code. Strong communicator with proven time management and teamwork abilities, and an eagerness to learn from feedback and continuously improve. Known for a curious mindset and a collaborative spirit.

Project Experiences

2024

OCSC International Expo 2024 (Internship in IN2IT company) Front-End Developer

- Designed and developed the official website for OCSC International Expo 2024, an event promoting universities for studying abroad.
- Created an interactive platform for universities attending the expo to purchase equipment and manage their participation.
- Implemented a user-friendly interface and responsive design to enhance accessibility and engagement.

2024

ACDelco Lucky Draw 2024 (Part-time in IN2IT company) Front-End Developer

- Developed ACDelco Lucky Draw 2024, a web application designed to manage and track ticket entries for a promotional prize draw event.
- Enabled users to check the number of tickets they have owned.
- Implemented a feature to display the winner by showing the randomly selected ticket number, ensuring transparency in the prize announcement.

2024

pixelParade Front-End Developer

- Designed and developed the OCSC International Expo 2024 website, enabling universities to manage participation and purchase equipment.
- Created an interactive, user-friendly platform with a responsive design to improve accessibility and engagement.

2025

CPE Siren Full-Stack Developer

- Developed a web app for network monitoring and alerting, featuring a real-time dashboard and graphical data visualization.
- Implemented device status management, template-based device addition, and triggered alerts for system anomalies.
- Built an event history log and integrated notification system for email and LINE alerts.
- Developed user role management to control access and ensure secure device and alert management.
